#### **1. Type of Programme**

- Short Learning Programme (SLP)

Short programmes upgrade skills and knowledge to ensure success in a chosen field of learning, but are not credit bearing.

#### **2. Description**

The Short Programme in Microdermabrasion provides the student with the advanced knowledge in the theory and practical of this advanced aesthetic procedure.

The purpose of the Short Programme is to equip the student to work alongside Aesthetic Medical Practitioners performing the skin rejuvenation treatment. It will upgrade the skill of a student that desires to establish themselves in the Aesthetic field of Health and Skincare.

#### **3. Admission requirements**

- Successful completion of the Dermatech Manual Facials SLP.
- OR Successful completion of the Dermatech Advanced Certificate: Health and Skincare (NQF 6) or equivalent to the qualification.
- Alternatively, non-standard access may be granted through Recognition of Prior Learning by the institution to individual applicants.
- Admission may be subject to an interview with an academic staff member.

#### **4. Duration**

The programme duration is over 30 total hours, including practical, theory and case studies. Theory is completed in a self-study manner, while practical training is face to face and case studies are completed in a private capacity (the Dermatech equipment can be made available on campus at the request of the student – booking is essential). Dermatech tuition is scheduled at specific times of the year. Programmes are offered during week days. Case studies need to be completed within 2 months from practical training completion. After successful completion of the case studies and assessment, certification will take place.

#### **5. Textbooks and study material**

All prescribed material and kit is included. A list of student material and textbooks if necessary will be provided by Dermatech campus academic department.

#### **6. Pricing**

Enquire at your nearest Dermatech campus for a current programme pricelist.
